List of Web pages and intended Purpose

Home Page

- Purpose: Serves as the central hub of my portfolio, providing a welcoming introduction and navigation to other sections of the site. It highlights my professional identity and areas of focus in cybersecurity.

Professional Page

- Purpose: Showcases my professional background, skills, and experience. This page includes a visual resume and detailed information about my career vision and mission, emphasizing my goal to become an Information Security Analyst.

Personality Page

- Purpose: Offers insights into my personality traits and how they influence my academic and professional pursuits. This page includes results from personality assessments and reflects on how personal qualities like attention to detail and creativity aid my career.

Personal Development Page

- Purpose: Focuses on my journey and insights from personal development resources like the "Twelve Pillars." It details how each chapter has influenced my professional strategies and personal growth.

Storyboard Page

- Purpose: Provides a behind-the-scenes look at the planning and layout of the website. This page is intended to showcase the design process, including wireframes and developmental insights.

Theme of Website

The website employs a clean, contemporary, and professional theme designed to offer a visually appealing and user-friendly experience. It utilizes a sophisticated color palette consisting of dark teal (2F4F4F) and light cream (FFF8DC), ensuring high contrast and excellent readability. This color choice and minimalistic and structured layout principles allow for seamless navigation across various informational sections.

Typography is carefully chosen, employing the Roboto font to enhance legibility and present a sleek, modern look suitable for a professional portfolio. Graphics are strategically utilized to support and enhance the professional tone without overwhelming the content. Subtle uses of images, such as personal photos and thematic icons, add a personal touch to engage with the viewer.
